

6th IsDB Group Evaluation Symposium

Cherishing Learning and Charting out the Future: Strategic Value of Evaluation in Decision-Making

8-9 October 2024

(including Pre-symposium Seminar Series: 25 September & 01 October)

IsDBG HQ, Jeddah, Saudi Arabia

Independent Evaluation Department - Islamic Development Bank Group

1. Introduction

In today's rapidly evolving world, organizations face unprecedented challenges and opportunities. The ability to navigate these complexities hinges on a commitment to continuous learning and systematic evaluation. IsDBG's upcoming 6th Evaluation Symposium on the theme "**Cherishing Learning and Charting Out the Future: Strategic Value of Evaluation in Decision-Making**" aims to explore the indispensable role of evaluation in shaping strategic decisions and fostering organizational success.

Institutional learning is crucial for enhancing IsDBG adaptability, innovation, and resilience in a dynamic global environment. This continuous process of acquiring, disseminating, and applying knowledge significantly contributes to improving IsDBG practices and outcomes. Evaluations play a pivotal role in this learning journey by offering empirical evidence and insights that inform IsDB's decision-making processes. When well-designed and executed, evaluations can substantially enhance both institutional learning and performance improvement. Furthermore, systematic evaluations help identify successful strategies and areas needing improvement, ensuring that IsDB's operations remain aligned with its evolving long-term development objectives.

2. Objectives and Expected Outcomes

The symposium will provide a platform for professionals, experts, and practitioners to discuss and share insights on the value of evaluations in informing future planning and improving decision-making processes. By highlighting real-world examples and best practices, we aim to underscore the strategic value of evaluation in enhancing the effectiveness of organizational strategies, adapting to changing environments, and aligning actions with long-term goals. Specifically, the symposium aims to:

- Enhance the learning culture within the evaluation community and the IsDB Group.
- Boost the quality and speed of the Realigned IsDB Strategy 2023 - 2025.
- Support institutional readiness and governance oversight.
- Strengthen the IsDB Group's external credibility.

The symposium aims to achieve the following outputs:

- Create conducive spaces for debates and enlightenment on institutional learning.
- Advance knowledge and understanding of what works, and what does not, in evaluation practices.
- Share insights on charting out future based on evaluation of the past and present
- Strengthen future operations design, delivery, and efficiency through incorporating best practices.
- Share corporate-level knowledge to guide continuous improvements, organizational change, and learning.
- Keep abreast of the latest advancements in evaluation practices and ensure their use in addressing the development challenges and opportunities presented by a rapidly changing world.
- Promote collaboration via networking and collaboration among evaluation professionals, other business units and key decision makers.
